Molecular in Molecular Biology, 125-131. Walker, John M., series editor. Humana Press (Springer Science+Business Media New York), 2018. ISBN: 978-1-4939-7743-7.
88. Hoffman, R.M., Li, L. Chapter 14: Hair-shaft growth in Gelfoam<sup>®</sup> histoculture on skin and isolated hair follicles. *In: 3D Sponge Matrix Histoculture.* Hoffman, R.M., ed. Molecular in Molecular Biology, 133-144. Walker, John M., series editor. Humana Press (Springer Science+Business Media New York), 2018. ISBN: 978-1-4939-7743-7.
89. Liu, F., Hoffman, R.M. Chapter 15: Histoculture of hair-follicle-associated pluripotent (HAP) stem cells in Gelfoam<sup>®</sup> histoculture for use in spinal cord repair. *In: 3D Sponge Matrix Histoculture.* Hoffman, R.M., ed. Molecular in Molecular Biology, 145-162. Walker, John M., series editor. Humana Press (Springer Science+Business Media New York), 2018. ISBN: 978-1-4939-7743-7.
90. Hoffman, R.M., Mii, S., Duong, J., Amoh, Y. Chapter 16: Nerve growth and interaction in Gelfoam<sup>®</sup> histoculture: A nervous system organoid. *In: 3D Sponge Matrix Histoculture.* Hoffman, R.M., ed. Molecular in Molecular Biology, 163-186. Walker, John M., series editor. Humana Press (Springer Science+Business Media New York), 2018. ISBN: 978-1-4939-7743-7.
91. Miwa, S., Hoffman, R.M. Chapter 18: Imaging DNA Repair after UV Irradiation Damage of Cancer Cells in Gelfoam<sup>®</sup> Histoculture. *In: 3D Sponge Matrix Histoculture.* Hoffman, R.M., ed. Molecular in Molecular Biology, 199-203. Walker, John M., series editor. Humana Press (Springer Science+Business Media New York), 2018. ISBN: 978-1-4939-7743-7.
92. Tome, Y., Uehara, F., Kanaya, F., Hoffman, R.M. Chapter 19: Comparison of “Dimensionality” of Cancer Cell Culture in Gelfoam<sup>®</sup> Histoculture and Matrigel. *In: 3D Sponge Matrix Histoculture.* Hoffman, R.M., ed. Molecular in Molecular Biology, 205-214. Walker, John M., series editor. Humana Press (Springer Science+Business Media New York), 2018. ISBN: 978-1-4939-7743-7.
93. Hoffman, R.M., Chishima, T. Chapter 20: Imaging the governing step of metastasis in Gelfoam<sup>®</sup> histoculture. *In: 3D Sponge Matrix Histoculture.* Hoffman, R.M., ed. Molecular in Molecular Biology, 215-220. Walker, John M., series editor. Humana Press (Springer Science+Business Media New York), 2018. ISBN: 978-1-4939-7743-7.
94. Hoffman, R.M. Afterward: Organoid culture: Going backward in order to go forward. *In: 3D Sponge Matrix Histoculture.* Hoffman, R.M., ed. Molecular in Molecular Biology, 221-226. Walker, John M., series editor. Humana Press (Springer
